

# Dr Joel Fiddes

Mountain Research | Consultant

joel.fiddes@slf.ch | Website | LinkedIn | Google Scholar | Github

## Currently

I am a research scientist and consultant with over 15 years of interdisciplinary experience working with research institutions, international organisations, government agencies and donor projects across high mountain Asia. Expert in high mountain surface processes, development of geoscience models and forecasting tools for application in WRM and DRR. Project manager, team lead field campaigns and WMO expert for programme Global Cryosphere Watch. I have recently co-founded the WSL spin-off company mountainfutures GmbH and maintain an affiliation with WSL Institute for Snow and Avalanche Research, based in Davos, Switzerland.

## Education

- 2009–13 **University of Zurich** PhD Geoscience. Thesis: Subgrid Simulation of Land Surface Variables in Heterogeneous and Remote Environments: Application to Mountain Permafrost. [Online pdf](#).
- 2006–07 **University of Edinburgh** MSc Environment & development. Thesis: Impact of climate change on snow-based water resources in Afghanistan.
- 2001–04 **University of Aberdeen** BSc Tropical Environmental Science. Thesis: Sustainability of subsistence hunting on Neotropical mammal species in North-East Peruvian Amazon.

## Employment & Projects

- current **mountainfutures GmbH (since 2025)** *co-founder*. A WSL/SLF spin-off aiming to translate mountain science into impact - advancing global water and risk resilience.
- 2018–25 **WSL Institute for Snow and Avalanche Research SLF** *Research scientist*. Investigating snow processes in High Asia using models, EO data and field measurements under SNF project “From Cloud to Ground: Snow Accumulation in Extreme Environments”. SDC funded projects in Central Asia “[Cryosphere Observations and Modelling for Improved Adaptation in Central Asia](#)” (CROMO-ADAPT 2021-2025) and “[Water, Weather and Climate Services](#)” with CARITAS CH (WWCS 2021-2025). Both projects focus on mountain related water and hazards nexus and collaborate with an extensive network of regional partners. I am a Member of the Swiss Polar Institute flagship project “[PAMIR](#)” and contribute to data sharing projects of the WMO such as “[Global Cryosphere Watch](#)”
- 2024–25 **UNESCO/Global Environment Facility** *Consultant* Development of high-resolution climate change impact scenarios on Central Asian snow cover.
- 2022 **World Meteorological Organization** *Consultant* Analysis and inventory of existing mountain observation and data sources related to snow, glaciers, permafrost, discharge, and ancillary data in Central Asia (Afghanistan, Tajikistan, Kyrgyzstan, Uzbekistan and Kazakhstan)
- 2021–23 **FutureWater** *Consultant* Developing a Glacio-Hydrological Model and IWRM Plan for a Selected Sub-basin in the Central Himalayas, Uttarakhand, India financed by the Swiss Agency Development Cooperation ([www.futurewater.eu](http://www.futurewater.eu)).
- 2021 **World Bank** *Consultant* Assessment Of Contributing Factors Of The May 2021 Disasters In Tajikistan. A forensic study under the Strengthening Critical Infrastructure against Natural Hazards Project (SCINHP, P158298)
- 2020–21 **Permian Global** *Consultant*. Supporting carbon prospecting projects through remote sensing analysis, code routines for carbon models. Tools for automated retrieval and analysis of remote sensing datasets to estimate deforestation rates.
- 2018–20 **Landell Mills Ltd** *Consultant* [Zarafshan River Basin Programme](#). EU TA project with Ministry of Energy and Water Resources, Tajikistan. Develop pilot routines for monitoring and modelling snow based water resources.
- 2017–18 **University of Oslo** *Scientist* Swiss National Science Foundation research scholar. Developing data assimilation and uncertainty framework for large area snowpack simulations in mountain regions.
- 2017–18 **World Meteorological Organization** *Consultant* for the [WMO programme Global Cryosphere Watch](#). Developing a global solution for interoperability of CryoNet monitoring stations and GCW dataportal.
- 2014–17 **WSL Institute for Snow and Avalanche Research SLF** *Data scientist*. Developing and managing data systems for the SwissEx/ OSPER project a large interdisciplinary environmental data acquisition and management project with multiple ETH domain partners. The WSL/ SLF is a leading federal institute in Switzerland for both hydrology and natural hazard assessments.
- 2016 **Himalaya Permafrost ETH SEED** *Scientist* Establishment of high altitude permafrost monitoring

- sites Langtang, Nepal. Training young Nepalese scientists. International permafrost and data tools workshop with participants from Afghanistan, India and Nepal.
- 2014 **University of Zurich Scientist.** Managing PERMOS network of ground and rock temperature measurements at Jungfrauoch, Schilthorn, Piz Corvatsch. Including extensive fieldwork and rope-access work. Processing GST, meteorological station and borehole data ([www.permos.ch](http://www.permos.ch)).
- 2014 **University of Zurich Scientist.** Swiss Development Cooperation/DEZA funded climate change adaptation programme ([www.ihcap.in](http://www.ihcap.in)). Developing baseline maps for key land surface variables in the Indian Himalaya with direct coordination with several Indian Government agencies (lead Department of Science & Technology).
- 2012 **\_Afghanistan Research Evaluation Unit\_ Consultant.** Remote sensing analysis of water availability in irrigated zones in Sar-i-Pul River Basin.
- 2011 **GIZ/ Hydroc Consultant.** Disaster risk management project in Badakhshan, Afghanistan for GIZ. Component avalanche hazard risk zones.
- 2011 **Afghanistan Research Evaluation Unit Consultant.** Remote sensing analysis of water availability in irrigated zones in Panj Amu River Basin.
- 2010–11 **Landell Mills Ltd. Consultant.** As part of Panj-Amu River Basin Programme (P-ARBP) in north-east Afghanistan developed a strategy together with a range of tools to improve water resource management. Training the first government team in snow sampling techniques (training course Wakhan Corridor). Establishment of high altitude field sites.
- 2009 **Agha Khan Foundation Consultant.** Project “PMIS”: Remote sensing analysis of irrigated zones in Baghlan NE Afghanistan. GIS & Remote Sensing – Applications in Social Water Management.
- 2009–13 **University of Zurich Scientific researcher/ PhD Candidate.** National science foundation funded research undertaken to develop and test tools that enable efficient application of numerical models driven by climate datasets in complex terrain. Work resulted in three first author publications. Oral and poster presentations at several international conferences. Supervision of MSc. and BSc. students. Fieldwork in high mountain environments. Large-scale deployment of temperature sensors.
- 2009 **Agha Khan Foundation Consultant.** Training in GIS systems and geospatial survey for AKF project engineers in Puli Khumri NE Afghanistan.
- 2007–17 **Independent Consultant** Projects mainly in field of water resources include: Environmental change analysis, capacity building, surveying / mapping, technical training. Clients include: multinational/ national donors, development consultancies, NGOs, e.g. European Commission, Landell Mills Ltd. Agha Khan Foundation, GIZ, Concern Worldwide.
- 2008 **Welt Hunger Hilfe Consultant.** Upper catchment protection project “PEEP”: training in geospatial survey and GIS systems for PEEP project staff.
- 2008 **Concern Worldwide/ Welt Hunger Hilfe Consultant.** Social water management and upper catchment protection projects “SWIM/SMILE”: Established GIS systems and conducted training in geospatial surveys for project staff. Surveying of irrigation channels and infrastructure.
- 2008 **Concern Worldwide Consultant.** Market analysis for natural resource based products in Takhar NE Afghanistan.
- 2007 **Landell Mills Ltd. Consultant.** Environmental screening report for irrigation rehabilitation component of Kunduz River Basin Programme. Additionally provided concept note on methods in snow and ice monitoring.
- 2007 **Mercy Corps Researcher.** Author of a policy document for global humanitarian agency Mercy Corps. Construction and analysis of a 30 year satellite data record to assess possible changes in snowcover area (SCA) over this period and implications for water resources of Northern Afghanistan. Collaboration with the Landell Mills led European Commission Kunduz River Basin Programme.
- 1999–04 **Formative research expeditions** Gulf apex predator prey project ( *University Alaska Fairbanks, Alaska, 2004*). Subsistence hunting study ( *University of Aberdeen/ Royal Geographical Society, Peruvian Amazon, 2003*), Coral reef biodiversity monitoring ( *Greenforce/ University of Malaysia, Borneo, 2001*), Tian Shan biodiversity study ( *BSES/CEH, Kyrgyzstan, 1999*).

## Core competences

- |      |   |
|------|---|
| Tech | <p>Geoscience model development with focus on mountain environments.</p> <p>Hydro-meteorological forecasting chains.</p> <p>Climate impact assesment in mountain regions.</p> <p>Data systems, exchange and management.</p> <p>Remote sensing, analysis of environmental change, snow cover, drought conditions, cropping patterns etc.</p> |
|------|---|

Engage	Strategic documents, proposal writing and project management. Stakeholder engagement. Workshops and lectures.
Field	Establishment of field monitoring tools, deployment of sensors/ stations. Scientific expedition planning and leadership. Automatic weather station programming /maintenance. Field training in glacio-hydrological methods.

## Technical skills

- Geospatial analysis
- Numerical models
- Remote sensing / image processing
- Statistical analysis
- Data exchange systems
- Large data processing
- SQL / Postgres
- Database management
- Server admin
- Cluster/HPC computing
- Linux
- R
- Python
- AWK
- Bash
- LaTeX

## Selected Publications

### Peer reviewed

## Selected Grants & Awards

2022 Cryospheric Observation and Modelling for improved Adaptation in Central Asia (CROMO-ADAPT) (Co-PI) (1.3Mio CHF)

2021 Swiss Agency for Development and Cooperation cryospheric Observation and Modelling for improved Adaptation in Central Asia (CROMO-ADAPT) Opening phase CROMO-ADAPT (Co-PI) (120k CHF)

2019 Expedition to install permafrost monitoring network in Northern Alai Range Tajikistan, Mount Everest Foundation (4K CHF)

2017 TopoSAT: High resolution surface modelling of the Himalayan cryosphere with satellite data assimilation. Swiss National Science Foundation Post-doc mobility (120K CHF)

2015 Data and monitoring tools for improved water resource management in Afghanistan. SEED Grant (10K CHF)
